

Wellness and Success Plan (revised)
10/17/23 Board Adoption for Amendment

The Bradford Exempted Village School District created and submitted a Student Wellness and Success plan in July of 2020 as per the attached document. The plan was immediately in effect for now and subsequent years, outlining the expectations of the available funds. The school included allocations through this fund and other designated funds for a full time school resource officer, wellness counselor through an external mental health agency, a guidance counselor, school psychologist, occupational therapist, physical therapist, interpreter (when needed), vision services, speech services, and any other medical services deemed necessary to aid the safety and wellness of the student body. This year, Bradford Exempted Village School District will expand services to support nursing services and an attendance officer. The district engages with the following community partners in order to comply with the needs of the Wellness and Success Plan. Those agencies are the Darke County Educational Service Center, the Miami County Educational Service Center, the Miami County Sheriff's Department, New Creations, and other entities who choose to partner with the district to facilitate the health, wellness and success of our student body..

The fund will be monitored for necessary changes in order to comply with the law and the success of our students and those changes will be reported to the Board of Education.
